Powerpoint Example

NEUROHEADWAY

Neuroscience Into Education

A large, dark silhouette of a person's head and hand is positioned on the left side of the image. The person is holding a pen to their chin, suggesting a state of deep thought or contemplation. The background is a gradient of blue and purple, with a bright, glowing light source in the upper right corner, creating a soft, ethereal atmosphere. The overall composition is minimalist and focused on the theme of neuroscience and education.

Consideration of Others

THE CONSIDERATIONS OF OTHERS

LET'S THINK

The Consideration Of Others is the ability to recognise our own emotions and those of others. It is a skill to discern between different feelings, to use our emotional information to guide thinking and behaviour.

For example; The Nursery School Teacher wanted to know what Susie was feeling, after she had been playing on the swing the Nursery School Teacher asked Susie to choose one of the teddy bears, Susie chose Happy Bear – that was how she was feeling.
