Case Study

Sustainable Procurement for Educational Supplies (Stockholm, Sweden)

Client:

Municipality managing eco-friendly public school program

Challenge:

Transition to sustainable suppliers while maintaining delivery efficiency.

Our Approach:

- Re-mapped supply chain with local, certified sustainable suppliers.
- Coordinated eco-friendly packaging and shipment consolidation.

Outcome:

- 100% of procurement aligned with sustainability goals.
- Reduced carbon footprint of logistics by 28%.
- Earned the Green Flag Eco-Schools certification for 150 schools.
