Case Study

Digital Learning Equipment Rollout (Cairo, Egypt)

Client:

National Ministry of Education (digital transformation initiative)

Challenge:

Equipping 1,000+ public schools with tablets and smart boards under tight deadlines.

Our Approach:

- Coordinated staggered delivery schedules to avoid port congestion.
- Real-time GPS tracking of high-value equipment.
- Local teams conducted quality inspections at each delivery point.

Outcome:

- 99.2% equipment delivery accuracy.
- Schools reported full readiness for national e-learning pilot exams.
- Efficiency gains led to expansion of the program to 2,000 additional schools.
